

Introducing California Casualty's

FALLEN HERO BENEFIT

Automatically available to our policyholders at no extra cost

California Casualty created a special policy feature that would provide peace of mind for the family/partner of a Peace Officer/Firefighter who makes the ultimate sacrifice, called the *Fallen Hero Benefit*.

Since 1969, California Casualty has been partnering with public safety associations to provide members with tailored auto and home insurance policies that meet the needs of their members. Both organizations recognize the ultimate sacrifice of the families who have lost a loved one and wanted to do something for the surviving family members to ease the burden of their loss.

Now the *Fallen Hero Benefit* will be in place for you and your colleagues that are insured through the A+ program. There's nothing you need to do and no calls to make for this benefit to be activated. What's better, there's no additional costs involved.

Here's how the coverage works: Should Peace Officer/Firefighter's life end in the line of duty, the premium will be waived for the surviving partner/spouse for the remainder of the current policy year and for the following policy year.

California Casualty is currently the only company to offer this type of premium waiver for fallen Peace Officers/Firefighters. This benefit among many others is the reason why your association chooses to make California Casualty's *A+ Auto & Home Insurance* available to its members. California Casualty takes great pride in protecting our policyholders who protect our communities. We graciously thank you for all you do.

If you have general insurance questions or are shopping for insurance, we hope you will call California Casualty's *A+ Auto & Home Insurance*.
